Dear Sir or Madam,

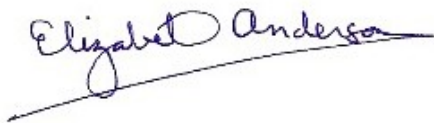

It is with great pleasure that I recommend the Musica Nova international electroacoustic competition. This competition is a very high-level and well-known international event that has been in existence for more than thirty years. It is also one of the only international electroacoustic music competitions in the world and, thus, it serves as a beacon for experimental music.

The quality of the music sent to the Musica Nova competition is excellent, the works are sent from all over the world and the jury takes time to carefully evaluate all works, anonymously, during several phases of adjudication. Prize-winners also receive monetary compensation for their works.

Further, the winning works are performed not only in the Czech Republic, but also in other international venues.

I highly recommend supporting the Musica Nova international electroacoustic competition.

Yours sincerely,
