Dr. DANIEL BLINKHORN (Australia)

Daniel Blinkhorn is a multi-international award winning composer, sound and digital media artist whose music gravitates around a synchronicity of frequency, texture, gesture, space, location and motion, all of which form (often metaphorical) frameworks within a given piece. Although often working in the electroacoustic, videophonic and ecoacoustic domains, Blinkhorn's output includes chamber, symphonic and wind orchestra works, sound installations, music for film, dance, radiophonic composition and various hybrid/ intermedia environments."
